

Bugs & Issues - Please report here

Posted by Markz - 28 Sep 2016 02:57

Ok guys this is a serious thread

I have a close rapport (*shuychus* in yiddish) with **the.guard** and the tech support team, and he requested that if anyone has any issues, they should please post it on this thread, and I will try pass it on promptly

1. **Important:** Please specify the 'bug' with as much detail as possible. e.g. what device you are using, where you see the issue ~~what mood you were in, which bug spray did you try,~~ and so on. E.g. "Chat on my Mobile Device (Specify what model) there's this blue chat circle..."

Warning: Spoiler!

"

2. **Update:** Reply here after you see the issue is resolved on your end. So I can report that the bug is successfully [vanquished](#)

It's available just like before. On mobiles you can find it by clicking the forum "hamburger" menu.

this new site has everything, even doordash for an early dinner!!

Does someone mind explaining the new tracker/ journal, I'm a bit confused. Am I always submitting what happened yesterday? Is it possible to submit what happened today?

I don't know if the "rules" section was always here on the forum; I'm lookin' at it now for the first time. Whoever put that together, kal hakavod to you; well done!!

When updating missed days in my journal, the top of the window seems to always have

yesterdays date, even when you're updating for a different day. Although The date that actually updates in your journal is the one that you pressed

Updating a fall on the 90 day chart is broken. No option to save the info.

When I go to login, and I put in my info, it takes me again to the same login page, and I need to put my username and password again.

Thanks

When are you prompted to log in twice?

If I login to GYE, and I would like to go to the HUB hub.guardyoureyes.com/ I need to login again.
