

covid-19 policies NYU manhattan

Posted by Ybird - 11 Oct 2021 16:20

Hi everyone, this has nothing to do with gye but i'll like to ask if anyone knows the covid19 policies in NYU hospital in manhattan, my wife is almost due and i've heard stories that they didnt let the husband into the hospital due to not vaccinated or negative covid test, does anyone have more recent info on that, also if they let a doula in?

please DO NOT tell me if i should or should not take the vaccine, my concern is only if they will let me or the doula in during labor

)

Visitor Policies for Our Inpatient Locations

At [Tisch Hospital](#), [Kimmel Pavilion](#), [Hassenfeld Children's Hospital—34th Street](#), [NYU Langone Orthopedic Hospital](#), [NYU Langone Hospital—Brooklyn](#), and [NYU Langone Hospital—Long Island](#),

Labor and delivery patients are permitted two support people, including a doula if the patient has one, throughout the labor, delivery, and postpartum period. These support people may not be rotated. At least one support person must be an adult age 18 or older.

I saw that on their site, but my wife told me stories that women told their husbands or doulas did not allowed in because they did not took the vaccine, i hope they will let me and the doula in, will let you guys know ly"n afterwards,
(helping another person is a very important part of GYE !

Hi YBIRD,

not that I have any opinion, but why not get the vaccine. J&J gives one and you are done.

I took 2 doses of moderna.

Its fine, many rabbonim and poskum said to get it.

Relax, roll up your sleve and get jabbed
