Anyone here play chess?

If so, you can add me on Lichess.org: shalegunfire

You can create an account for free, pick anonymous usernames, or even play without an account (in which case, if you Davke want to play me or someone in the forum, you will need to send a link to each other).

?If you do create an account, consider enabling "Kid mode" to disable all interactions with other random strangers on the internet through the website.

EDIT

In case it wasn't clear, fast paced chess sometimes helps me with my struggles, but I wasn't sure how much to go into that, since this section's description says "non addictions related"..
