When Nasa first began sending astronauts into space, they were confronted by a small problem. Their standard ballpoint pens would not work in space. They spent a decade and twelve million dollars designing a pen that would work below three hundred degrees, in space, and on glass.

Russia used a pencil.

A driver is pulled over by a policeman. The police man approaches the driver's door.

"Is there a problem Officer?"

The policeman says, "Sir, you were speeding. Can I see your licence please?"

The driver responds, "I'd give it to you but I don't have one."

"You don't have one?"

The man responds, "I lost it four times for from drunk driving."

The policeman is shocked. "I see. Can I see your vehicle registration papers please?"

"I'm sorry, I can't do that."

The policeman says, "Why not?"

"I stole this car."

The officer says, "Stole it?"

The man says, "Yes, and I killed the owner."

At this point the officer is getting irate. "You what!?"

"She's in the trunk if you want to see."

The Officer looks at the man and slowly backs away to his car and calls for back up. Within minutes, five police cars show up, surrounding the car. A senior officer slowly approaches the car, clasping his half drawn gun.

The senior officer says "Sir, could you step out of your vehicle please!"

The man steps out of his vehicle. "Is there a problem sir?"

"One of my officers told me that you have stolen this car and murdered the owner."

"Murdered the owner?"

The officer responds, "Yes, could you please open the trunk of your car please?"

The man opens the trunk, revealing nothing but an empty trunk.

The officer says, "Is this your car sir?"

The man says "Yes," and hands over the registration papers.

The officer, understandably, is quite stunned. "One of my officers claims that you do not have a driving licence."

The man digs in his pocket revealing a wallet and hands it to the officer. The officer opens the wallet and examines the licence. He looks quite puzzled. "Thank you sir, one of my officers told me you didn't have a licence, stole this car, and murdered the owner."

The man replies, "I bet you that liar told you I was speeding, too!"

Two drunks are walking along.

One drunk says to the other, "What a beautiful night... look at the moon."

The other drunk stops and look at his drunk friend, "You are wrong, that's not the moon, that's the sun."

They started arguing for a while when they came upon another drunk walking, so they stopped him.

"Sir, could you please help settle our argument? Tell us what that thing is up in the sky that's shining. Is it the moon or the sun?"

The third drunk looked at the sky and then looked at them and said, "Sorry, I don't live around here."

I was asked by a friend of mine what I'm doing. I told him that I'm working on "Aqua-thermal treatment of ceramics, aluminum and steel under a constrained environment".

He was impressed.

I hung up the phone and continued washing dishes with hot water, under my wife's careful supervision.

A child asked his father, "How were people born?" So his father said, "Adam and Eve made babies, then their babies became adults and made babies, and so on." The child then went to his mother, asked her the same question and she told him, "We were monkeys then we evolved to become like we are now." The child ran back to his father and said, "You lied to me!" His father replied, "No, your mom was talking about her side of the family."

A plane was about to crash and there were only four parachutes on the plane. Meanwhile there were five people on it. The first person, Lionel Messi, said, "I'm the world's best footballer right now, I cant die now!" So he took one of the parachutes and left. The second person, Aliko Dangote, said, "I'm the richest man in Africa, I can't die now, I'm needed in Africa!" So he took the second parachute and left. The third was the Nigerian President and he said, "I'm the smartest President in the world, so I cant die now, my people still need me!" So he took one and left. Then it was left with the Pope and a little school girl. The Pope said to the little girl, "Take the last one, I'll sacrifice my life for you." The little girl replied, "No need for that, There are two parachutes left." The pope asked her, "How come?" The little girl replied, "The Nigerian President took my school bag."

A team of engineers were required to measure the height of a flag pole. They only had a measuring tape, and were getting quite frustrated trying to keep the tape along the pole. It kept falling down, etc. A mathematician comes along, finds out their problem, and proceeds to remove the pole from the ground and measure it easily. When he leaves, one engineer says to the other: "Typical of a mathematician! We need to know the height, and he gives us the length!"
