Off the topic (no smiley's), but I just came across this new term in Rabbi Wikipedia

### **Witzelsucht**

"A set of rare neurological symptoms... A less common symptom is hypersexuality, **the tendency to make sexual comments at inappropriate times or situations**"

Go figure!

No you Witzelsucht - I didn't say "look at that figure"

Also this...

witzelsucht [vit'sel-zo?kt] (*Ger.*) a mental condition marked by the making of poor jokes and puns and the telling of pointless stories at which the speaker is intensely amused...

Also known as "Joke Addiction".

maybe that's why the JHF section is so popular...
