_____

Hi,

I introduced myself, not long ago, Here. But I have grown since then, and have outgrown my small house in the "Introduce Yourself" part of town. I am a Jr. Member and soon will be a "Full Member" IY"H, so I decided I needed to build a new house in a new neighborhood. I looked around at different neighborhoods and saw some spectacular houses in "Wall of Honor". I see that Zemmy and Bards have built here among others, so I decided to plant myself here as well. I will hopefully build some walls of honor myself, and continue to make great friends along the way.

I plan to use this as my main posting thread. So please come in and make a l'chayim, or enjoy some chocolate babke and fresh brewed coffee, or just stop by to say hello.

It's a privilege to dwell among such chashuve yidden!

_____

Your welcome to some coffee, but you will have to actually come inside for a visit. It's not a restaurant, it's a home.

_____

Click "Profile".
Hey, that was gonna be mine (if i ever figure out how to upload it)

Under the heading "Modify Profile" - click the "Forum Profile" link.

You should see a section called "Personalized Picture" creating an avatar. I assume you want to use the text box and browse button to upload an image from your computer.

Don't foget to click the "Change Profile" button at the bottom of the page when you are finished.

I hope this helps.

_____

i know a guy on the forum who went to someone else on GYE's house specifically to upload an avatar. if you want you can give a trusted person your sing-in info and let him upload the pic you want and afterward you can change your password

_____

thats great!!

i've been meaning to ask you this. lemme know if you can afford it now. maybe find a good contractor or just try on your own if you're a DIY person. and it should make things easier for you and your family if it can be implemented. my point is that i am concerned about the effect on your sefarim and chandelier. unless it's done outside. but what about when it rains. point is that

_____

Beleive it or not, I am running out of space in my signiture line. It only allows 300 characters. I seem to be way below that, but you can't see the url which is long. I need a solution and maybe an addition. I can't affort it right now, so it will have to be DIY job.

I'd like to put into my own words something I saw in a sefer. Before a person "slips" the Y"H says. "Oh, come on, it's no big deal". Once a person falls, the Y"H says, "You slime bag, you are evil, there is no teshuva for you!".

We need to take the opposite approach. Make a BIG DEAL out of a potential slip. If we fall, just KOT!

One image I thought of to avoid opening a magazine or website which "might" have triggering material. Would you eat the leftovers in the fridge if they "might" be moldy? Would you taste it to find out, or just throw it out? Use the same caution. (unless you eat moldy stuff, then you   ).

==
====

might need a different strategy
