It seems that he was booted, or something. His fake name (you guys call it 'username' says "guest" under it.

Nu. It is hard for me to believe that he doesn't really need some sort of help with a lust problem, for he is here, on GYE. Nu. He can always pm me and I'd be glad to talk it over with him...unless he really seems to be a mazik and nothing more...

So far, he is not taking my bait. No garbanzos in his pants, it seems.

This thread is really important and interesting. Therefore, I'm posting these otherwise meaningless words in order so that us newer members may come across it more. Ha Ha!
