Hello everybody!

Just wanted to let you guys know that I fell after 126 days. I had no resentments fears nothing I'm doing great actually I'm in a very good mood and very happy with my life in general with everything that's going on.

But I had a first drink.

I was using an unfiltered iPad When an ad came up. One thing led to another

I thank everybody in advance for their encouraging words in the last three years here I believe I got enough encouragement to last me for 120

Just felt I should post this here as a reminder never ever take the first drink never.

I plan to keep on trucking and keep on posting if I'm around and it's great to be here and have such wonderful friends
