iv just started the 90 days and i want out already, i cant remember the last time i went clean for more than a few days, i am addicted to live s** cams and porn, i have an obsession with legs/feet in stockings so walking down the street looking to the ground is exactly what i have to avoid cos thats were all the legs are, and the worst of it all is that frum women wear stockings/pantyhose and they are everywhere too. this is going to be a roller-coaster ride i know it.
