

laughingman tries to count to 90.....

Posted by laughingman - 14 Mar 2013 16:01

as of today all my posts are here as far as my own topics are concerned

i have had 2 falls but i am now a week into a new streak

i have had success in breaking some previously unbreakable habits

not m***** habits ...thoses i have dealt with somewhat but even farther

as a result of the rules that i follow through the 90 days and though i have slips about once in 2-3 days every day foward breaks that tooo down so that it becomes less frequentand eventually non-existent

i recently got the s3 and i have had soo far Thank G-d no desire to sttempt to use it for searching ****

i personnaly dont use software barriers for myself (for my kids i do of course)

i can break them too easy ...the only way out is personal honesty

as all of these things are for now personal actions

and it is working ...hopefully it will continue though im sure the real war is coming

im gonna digress completely off topic for a minute

maybe surprising to some but one of my inspirations to beat this problem and all that i face is the fictional character batman

because unlike the other early comic heroes ...he has no special powershe draws his abilities from working on himself both inthe past and in the present and he uses technology to overcome that which would otherwise be impossibleall to become bigger then himself to those who prey on the helpless much like how we fight the inclination inside of us and against those who ally themselves with him

in real life my inspiration is rabbi akivaa man who at 40 in a time when comebacks in religion were unheard of he wentand made the sacrifices again and again out of a pure conviction that torah was like water that could carve out a stoneworked against what must have been otherwise insurmountable odds only to be murdered at an advanced age and in doing so became greater then his tormentors could ever dream of in this world and of course the nexteven non-jews marvel at the stature of the text-book example of a man willing to give his life for the truth

Re- my last post i realize i went soemwhere weird with my though train here before i just feel that all of us here need to find something ...sometimes anything to inspire us to climb the mountain and beat the odds we are against....this is a war gentlemen! And the gloves are off....

Just goes to show that the work is never done....

I have had a slip today.....but i turned away from it before it was a falla slip to me is a relapse toward past behavior that i have forbidden myself but that i stop before completely relapsing to a an action done in the past that was either a slip or a fall

Hense if i had seen something the week before i shouldnt for a minute and looked away and counted a fall then the next time i would have to either prevent it entirely or at least come to my senses faster

Of course im way past that point but just to give a background

This way i am always doing better....except for full on falls which rarely happen now i havent had a "" moment since april and i havent seen full on n***** since sometime june last year i was already winding down the time in spent watching***** which coincidently is sortve why i didnt really start the chart till april.....i wasnt really at chart level....but lately i have been coming back.....slipping sometimes but comingeven after a slip i pray and say hispodidut like i G-d forbid did something worse...cause in the end i am mostly diappointing Him and i must ask for forgiveness for lapses.....also from myself...

All this and im still dealing with hard times although now i have a small amount of planning done on how to deal ...keep in mind i have no kosher outlet right now or for the forseeable future im cold turkeying myself ...but slow enough and deliberately enough to create a real foundation...so that soon i will stand clean an sober 1000% instead or a passing grade with slips....
