Have you met with anyone about your problems? An NA group? A therapist? I think that you have to get out there and find some help other than this anonymous forum. You already wrote you almost died. Please go seek help before you go down that road again, G-d forbid.

Welcome again, but as MBJ said, "This forum should not be your only step."

You can let us know if you need assistance findin' a counselor for the drug issues.

Some of us have experience in that.
