Posted by Bigmoish - 29 Jul 2014 23:01

I just posted my story in the "introduce yourself" forum. It feels like a weight off my shoulders already, but I hope I can really do this.

I already woke up this morning with the YH in my head, but I managed to brush it off and go

I've been having somewhat of a difficult time lately, and yesterday I acted out. I am thinking it's related to my constant "fear" of facing decisions.

Well, today I am facing them head on.

Hi Moish!!!

How was the facing decisions?

And how are you doing in general?

Those decisions were faced. New ones pop up every day.

General? Sadly, I keep getting bumped back down to private.

What's so sad about being a private?

I know it's not a fun thought, especially for egotistical guys like myself, but we are just privates. We are not in control, we don't give the orders, we take the orders, we have to fill out other peoples commands, sometimes we may understand them, sometimes we don't, some orders are easier to carry out, some are more difficult.

A humbling thought it is, but it's the truth!

KOP Bro!! KOMT!!!

BM, To me you are a general. You fearlessly have taken on an enemy that is stronger than you, smarter than you and more dedicated than you.

You chose methods to outflank the Yh tapping into the unlimited strength of HKB"H. So you can win this war without firing a single shot. You can watch from the sidelines as HKBH wages your battle. Pretty smart strategy befitting a general.

Most do not become a general until they reach their 40's. You are a child prodigy rising to general status at such a young age.

I envy your courage, wisdom, and commitment!

We may be privates, but we are privates in the best Army in the world!

Private any day for me. Who needs the hassle of having to commandeer other people.

I tried it and it falls when I smile

I am feeling down. I know that all that really matters is that I do my best, but it still bothers me that I have a strong attraction to my sister in law. I can't constantly share these feelings with my wife (although she knows about them) because they make her feel inadequate or at fault in some way, which is far from the truth. I feel bad that she suffers even though she does everything she can to try to help me.

I'm far from an expert, but I can't see any time that you should ever share that feeling with your wife. I'm pretty sure that your attraction to your sister-in-law is pretty normal. The fact that you let that attraction consume you, may not be. What does your therapist say about it?
