So first tell us about the successes and then tell us about the falls, or if you want, it can be the other way around.

Refresh our memory as to what's goin' on.

I think I prefer "the second day of Rosh Chodesh Elul should be taken one day at a time."

Awesome, Abe, that you're count ODAAT.

May you count like that each day until 120.

Maybe add a ??? ????!

So Who's gonna come up with a nusach? :-)

Whenever you feel a struggle, say, "L'sheim yichud kudsha b'rich hu" and by that time, you should be fine.

I was answerin' for the nusach of the 'l'sheim yichud' that might work.

I thank God that I have now those three seconds in between 'look # 1' and 'look # 2.'

I simply say: "Life or death; that is the question."
