Hey everyone this is torahismyantidote I am currently day 107 and I wanted to know that on day 101 I by mistake saw something inappropriate I saw a women who's bottom half of the body was completely covered and the top half which were showing her breast was blacked out so I wasn't able to see anything the second I saw this I closed my browser and until today it keeps on bothering me whether I saw Pornography or not. So is that considered porn or no? Sincerely

a distressed jew

Welcome,

Great goin'!

how'd you do it?

please share

and regardin' your question, what's the difference?

[and by the way, I have no idea why it should be....her entire body was covered!?!]

Welcome, wow! great achievement, share with us how you manage and some more.

A distressed jew? what should we say? we (are) were so prone to bad stuff, after a while it became so natural and didn't bother, well in recovery especially in the beginning it hurts badly, but no its not a fall, just continue and ask for rachamim.

Great work closing the browser as soon as it popped up! I believe that would be considered, at most, a slip
