Pesach I always gain weight and I although I love to blame it on the matzes (how many kezeisim did we eat?) and the wine but these are not the real reasons. Eating too much is the real killer. Anyone said something about lust????

Time to do something about it.

Beginnin' of this post belongs on a different thread. What's lust got to do, got to do with it?

Il was careful with my eatin' habits this week, not as much with my seein' habits.
