

A question

I have a question. Recently I was trying to look in my phone for something that wouldn't be fully pornographic, just trigger, but something that definitely I shouldn't be looking, as is only the begging of a slip. Now, B'H, I couldn't get anything due to my very efficient filter (at least to me, not very technological savy).

Is that consider a fall?

What's wrong with falling?

No. But let that be a warning. A fall is probably around the corner unless you plan now what you're going to do the next time an urge like that comes up. If you don't want to lose `your streak plan ahead,

You have to be completely honest with yourself I think only you can answer that question

however if counting it as a fall would take the wind out of your sails perhaps wait some time and then count it as a fall

another thing is what are you trying to achieve with a a sobriety streak real sobriety or perhaps just just a number by you're name and a place on the wall of honour

Thank you for both answers, both are important things to think about. A821, you are right, sometimes the 90 days counting become a goal on itself, and it shouldn't, it's only a tool for achieving a sovereignty.
