

I will make it b'e"h

Posted by MayanHamisgaber - 19 Dec 2016 23:17

Just started my 90 days journey (hopefully indefinitely) a little nervous as for years i have had very long stretches with feeling nothing and then WHAM massive fall which would then spiral out of control until someone found out. But now i have gye and everyone here who are so

=====

Re: I will make it b"h

Great idea!

encouraging and thoughtful that i know i can do this for good !

But pray tell me is this the first time you tried some sort of abstinence plan?

For me the plan didn't work - not before gye and not after I joined either. I started trucking when I joined gye and it happened by the grace of GD that I passed 90 days

So what are you doing today to get that truck engine warmed up??

first of all thanks for the vid. very interesting.

this is not the first time i am trying something like this i remember in mesivta i fell twice in one year i told the menahel and the mashgiach and ended up learning with them and that helped for a while.

This time i hope to keep it up by 1)keeping my wife updated and 2)using the resources that gye

provides especially the forum and chats and hope to connect to some of the guys here (though i get the feeling i am younger than most of you)

I've been reading the threads on the forum many guys i think would be able to help me either with advice humor or just plain understanding of this journey we are going through.

gotta get some sleep very late (really early morn. here).

and thanks

Hey. How do you know? Just because I write in calligraphy script? These young whippersnappers....

Keep using the resources. See if 12-step programs are right for you. They may or may not. Do your research. Tons of stuff here to peruse and make a decision. Hatzlocha! Keep active.

Help i'm so tired it's hard to thunk staight my baby has cried till 2is am for a week and a half any

suggestions?

Yes. We got this book that taught you how to swaddle the baby in the blanket, rock them back and forth, and make loud noises to get them to sleep, and it worked.

Is your baby eating well?

thanks everyone for the help

cords:i told you i can't think straight:wink:

workingguy:thanks for the info i've also read and watched clips about that but the problem is that when we put her down she starts screaming as if in pain (she is on zantac for reflux and i have upped the amount given)

and b"h she is eating well

[czworking123 wrote on 22 Dec 2016 18:03:](#)

ask him what

How to calm the baby.

or, how to sleep with the racket.

=====

Re: I will make it b"h

Posted by czworking123 - 25 Dec 2016 20:00

oh that,sleeping with the racket is fine by me just not fair to the wife

and to calm the baby she is definitely allergic to something but the doc. doesn't want to test till 3
(we know she has re-flux and give her med. and milk is a no no but what else?)

=====

months

So, did you ask him?
