

Maaturbation

Hey guys. I'm at the end of my month of taphsic fence; probably time to redo it. Meanwhile I feel craving to masturbate in my small taphsic fence geder.

Is there any way to make a taphsic on the taphsic? In order to ensure that you never get to the end of the month without a plan in place for the following month. Not sure I'm making sense at this hour.

Not one to judge, but have you tried any other methods of stopping? Taphsic is great but won't always do the trick.
