Editing the 90 days
Posted by Jman356 - 13 Aug 2018 13:04

_____

I input that I had a fall but I accidentally put that my first clean day afterwards was 5 days later, which it wasn't . Is there a way I can edit mine to show an accurate count?

In the 90 Day Chart, go to My Diary. There should be an edit button on your most recent entry. You can change the dates over there.
