

Medication

Posted by eliezergrow - 07 May 2019 05:52

Has anybody ever tried medications like Naltrexone or Vivitrol to help with curving sexual urges?

Please let me know your thoughts.

Thanks.

You know they have these annual Mosquito Truck Spraying and Aerial Larviciding events.

So maybe we should request a monthly 50 mile radius Aerial Vivitrolling around each gye Member's home?
