Here's a message I sent to a mentor earlier today, I though it might be kdai to share here.

It took me a while to fall asleep last night. I spent some time thinking about a certain girl, which wasn't great. I know that it's normal for a young guy to have a desire for a physical relationship, but I don't think I realise that so much more is involved in any relationship than just the physical side of it. BH I'm not involved with her, or messaging her or anything like that, but I would like to try to stop these thoughts and fantasies. I think it's probably a bit of withdrawal, but it's also somewhat of a long term thing that I have only got past a few times

Day 10

BH today was clean

Feeling some desire now to delve into the thoughts I wrote in my last post. I think it's a mix of withdrawal and also something that is habitual to me and that I've done a lot in the past. I've been dealing with it a bit more over the last week but haven't wrote much about it.

I have to appreciate that despite the fact it's still not a great thing to go into, it's still a lower level desire.

Warning: Spoiler!

Day 11

BH today was clean.

I touched myself today at one point when I wasn't really thinking, and while doing something else. I don't think it's something to get caught up on

12 days is very impressive! Keep it coming almost at 2 weeks!!!

Also know the beginning is the hardest once you make it past 2/3 weeks it gets a lot easier in my experience
