You can call TAG (Technology Awareness Group) - they have very tech savvy guys who can hopefully advise regarding filtering unique devices. They have offices in most large Orthodox communities and are eager to assist.

And if you're don't want to do that, you can post (or pm) which device you're using here. There are some very tech savvy guys on this forum also...

Check out the other tools tab on the side of this page, click on filters, and fill out the form for assistance with filters. Or just click this: [guardyoureyes/protection](#) to get to the form. Hatzlacha!
