I made it to 15 days I thought it was supposed to be hard but I made it first time and with the help of giving donation to this guardyoureyes site and also putting my 90 days count I never made it this far for years and after that was almost impossible to stay 1 week until I got back into this site in the right place at the right time... I hope I make it to 40 days!!! and then 90 days...

There is something about this site that helps me go far in days and make it easier too! Bli ayin hara...
