I have recently seen someone post this after reading a couple of old forums and conversations when I had some rough time and thank the borey shel olam (hashem) that I came across this online link to this written book that I am currently in the process obviously but do feel it is very effective to bring a positive outcome! Hatzlacha Rabah, (my own opinion if you are like me and don't like reading long books- you can do what I did and get an extension for voice read aloud texts and put it at your speed. And look along!! It has helped me and very appreciative and would really want everyone to have at it because I feel as though it is a great mehalech (way) to succeed in accomplishing any struggle one may have! <http://easypeasymethod.org/easypeasy.pdf>

please to the chashuvey oilam (high stature group) take this into consideration and send back your feedback here! Bhatzlacha (with much success) to each and every one of you on your endeavors in breaking the chain and keep the climb upwards!
