

Nothing to lose

Posted by notezy - 24 Jan 2024 15:01

Nothing to lose by starting the 90 day challenge.

the challenges i see before me:

The sturggle to get off my devices.

staying positive and not falling into the trap of skipping steps.

finding ways to interact more with people in the real world.

I have struggled with this for many years I have tried different tools and I see what a differences it makes in my life when I am clean I might as well start.

Day 4 its been hard the beginning of today I think because I was surrounded with people complaining about the pritzus around them yesterday and it made me feel a bit to comfortable in the struggle.

I eneded up working all day so I didn't have to worry so much about it till now.

Yeah, sometimes people protest too much and it's really just an opportunity to chazer over.

Focus on yesterday's win and try to move on.

Keep on trucking!

Youth is overrated, friend.

Now that you're feeling older and more experienced, what do you know that you didn't used to know that can help you in this journey?

Here's a hug,

Chaim
