

Nothing foresaken

In an effort to strengthen myself as well as others, I am writing a post that should give us the desire to fight be"n.

We say in Benching "I have never seen the righteous forsaken or their children begging for bread".

When one connects to GD and watches what he sees, thinks about and does then he loses out on nothing.

?His "children" which refers to his Zera (seed) will never lack the appropriate and permissible method of use. His Bread (Pas Bisalo) will always be available to him in the most proper, meaningful and fulfilling way.

He will have Parnassa in abundance and his children will be a true source of nachas for him.

We are really giving up nothing and getting everything in return.
