As a single bochur in Yerushalayim I hope to go for 90 days M-Free. Bh regarding porn I am by day 47 but because M is my main struggle right now I want to have this thread just for M.

Today if I bez"h pass it will be day one I still have to withstand an hour or 2 including a shower. I ask hashem to give me help through this challenge and through this i can grow in totah avoda and yiras shamayim.

I wish to STOP SURVING & START LIVING.

PS special shout out to HHM who it turns out months ago when I reached out to GYE and they hooked me up with a pro and maiven to talk to it was him, and he's been supporting me since. Keep it up HHM, keep helping klal yisroel.

To sum up the last 30 hours: a lot of wasted time, a couple of falls, and a couple of stupid things done.

No I do not feel good now, I feel horrible. I don't want my life to look like this moving forward. I want a happy productive life. The way I am living it now, it's unproductive and depressing. No I am not depressed but you get the point.

Plan of action you ask, it's a good question. I had a plan but it fell through because I was laid back about it. A new plan is pending and I hope with gods help it will work out.

What will I my report be tomorrow night? I can't know, but what I can say is, if I get past the urges to filter poke and I do something productive, I should be good. So I hope that happens.

*Ein Hadavar Tuluy Eli **Bi!***

Have a wonderful night,

Signing off, SSSL, from a **trying, fighting, bloodied and bruised, but not giving up, and hopeful** dark soul in the Holy Land.

Did you ever have a webchever? that helps tremendously with filter poking. Because you know that someone will see everything.

I never tried it. But I thought about it. The problem is I am not comfortable doing it with anyone who doesn't know I struggle. Giving access to someone here won't help because I anyway post it on the forum.

Are you sure that it's the same?

Accountability with a real person (who maybe you even met in person) can be a much stronger deterrent than posting on some forum for pajama-clad, basement dwelling (ex)porn watchers...

I just want to throw another vote in for accountability software. I was very reluctant to add any accountability software for a multitude of reasons (privacy, shame, not wanting to constrict my freedom, cost, laziness etc. etc. etc.). But they were all excuses.

Having a buddy from here get notifications of allowed sites from Techloq (which is totally free and easy to set up) cut down my filter poking by like 75%. And that was something I seriously struggled with. Yes, the guy anyway knows I struggle. But that tiny drop of yiras basar v'dam is very helpful.

I agree it's probably a bad idea to have someone who isn't familiar with the struggle be the chaver. But maybe one of the guys you're in touch with would agree to do it. And I think you'll find it's more helpful than you imagine.

So the idea of having someone get a notification does sound like a good idea. Though do they have to approve it before techloq can approve it?

I 4th the motion (if you are considering it).

Having a real-time notification can be much more present than post-facto accountability.

That is an option for Techloq. You can add an admin who has to approve requests.

But what I did was add a second email to receive notifications when sites are approved. Both Techloq and Gentech can add that for free.

Btw thanks to Redfaced or Eerie for the idea. I think it was one of them who suggested this to me awhile back.

I very happily gave you a thank you for remembering it was me. Unfortunately I also needed to take away a karma for mistakenly thinking it was Eerie. Luckily you have 41 other karmas you

can use to feed your kids.

Wow I knew you were just in it for the fame and glory. Here I was thinking you were a nice guy. Silly mistake to make.

Eerie told me about the techloq admin feature.

Thank you to @chancy, @proudyungerman, @chosemyshe and @BenHashemBH for pushing me to add someone to get my filter notification. It is in the works.

A special thanks to @redfaced for being the one who originally told @chosemyshe.

Not to forget, the one who will be getting the emails, Thank You.

Regarding my day, can't say I was too productive but I can gladly say it's been a clean one!
