Communal success
Posted by pomegranate - 20 Mar 2025 21:17

Greetings Rabbosai,

I had a challenge today with a email at my work address that had a risky looking by-line. BH the chizuk I have received here came in and i haven't opened it. This is new for me and I attribute it to all the support here and to the fact that I can post this success here. I believe this success belongs to everyone here, wherever they are holding.

====

Thank You!
