

ToAdd A journal

Posted by ToAdd - 29 Oct 2010 05:37

Today is the first day of a new journey.

Hashem, I have come to realise how weak I am in this area.

With tears in my eyes, I place myself in your loving hands.

Please don't turn away from me. Help me return to you.

Your servant.

Yosef.

Yosef, I'm pretty sure he's talking about somebody else.

Yea, I'm aesthetically challenged and have no rythm so that rules out art and music; and every time I try take over the world, I realise I have to start with myself and that kills that idea.

My plan is to let people know how I feel in a better way (that is not hurtful).

When I'm down, I'm going to try not withdraw into myself, I'm going to find some way of letting it out.

Quote of the day:

My parents would be so proud to find out I'm in SA and doing so well!

Now that's a bitter-sweet pill.

Im at that stage where I'm asking myself "Am I an addict, or do I just have a bad habit?"

Clean for two weeks and already I have "forgotten" how I could not stop myself running to serve [insert name of the pn gd here].

Maybe it was just a habbit, right now I don't care what I call it, I'm not going there again.

I got some really bad news this morning. My biological mother will probably not live long, the cancer is winning. I don't really know her, but I feel so sad. Wow, real tears.

Still feeling down.

And what does the y"h do? Last night she sent me a wet dream.

Deep Sigh.

Sooo? Why is that a reason to sigh?

See the [Wet Dreams](#) Thread. Especially [this post in that thread](#).

Unless your sigh is because of this:

Still feeling down.

The dream does not worry me.

The radiation therapy “did not make things worse”, which is good, it buys some more time.

Last night, I caught my mind trying to turn to lust for comfort, digging up old fantasies.

I changed the channel to a problem I have at work and thought about that instead – worked like a charm.

I’m a bit happier today.

Just need to keep on trucking!

These forums keep logging me out.

Good thing I copy my post from another app (to check spleling).

Checking in again.

I'm mostly over the sadness.

Been listening to the shiurim from happywife.com, I enjoy them, he's funny AND has a good point.

I love life. A little difficult, but lots of good stuff.

Things are so different now compared to a year ago.

Thank you Hashem.

Thank you Tzaddik90

That really put a smile on my face. I'm honoured to have you here.

My story starts over here:

www.guardyoureyes.org/forum/index.php?topic=2614.msg69825#msg69825

Wow, that was about 9 months ago. And today, I am a different person.

This thread is just a log. I found it really helps to check in often.

Update: That "other person" that was such a misery in my life left the company at the end of last year.

I've worked out all my issues there, I know where I went wrong and after that ordeal, I'm not going to make those mistakes again.

Keep on trucking.

I slipped a bit last night.

Not sure why. During the day I had full opportunity but distracted myself with something else.

Then when everyone was asleep (and I was wiiiide awake) I got up and started flicking through the channels.

Just bored. Perhaps a bit irritable and seeking comfort. Perhaps a form of sulking.

Whatever the reason,

just keep on trucking.
