

Wow

What a awesome powerful site this is! I've been receiving daily emails for quite awhile now and it is quintessential for both addicts and non addicts to read these emails. There is no human in this world who cannot better his shmiras enayim. In this technologically advanced world we must counteract these sexual tests with a movement such as GYE. I have donated my masser money to this site on numerous occasions, and I feel prouder then when I give to any other cause. All people that take part in this tremendous revolutionary war should know that you are elite soldiers and you belong in Hashems special forces!

It takes a special person to realize how important the work we do here is...consider yourself part of the movement, part of the revolution!

The few, the proud, the GYE's...
