A cool [2.5 minute video clip](#) that gets straight to the heart of what we do! For those who (hopefully) can't access youtube, you can view it [here](#).

Dear friends,

In order to help every person in the Jewish world struggling with the pull to inappropriate materials, GuardYourEyes continuously labors to develop cutting-edge innovative solutions that really work, in order to save individuals and families and to fight for the kedusha of the Jewish people.

We recently launched a new project for teens struggling with inappropriate materials. We gave presentations to offer solutions in over 100 schools in Israel and are preparing to expand the teens project to schools and sems in the U.S and throughout the world (including presentations for parents and educators).

We're also launching new apps - the 'GYE Help App' and the 'GYE Connection App', and due to great demand, we're creating new websites in English and Hebrew specially to offer help to spouses that discovered their husbands' are falling-in.

To maintain and expand our efforts we are in dire and urgent need of funding.

With your help, we can change the world!

Please [visit our crowdfunding page](#) and PASS **THE LINK** on to all your contacts on e-mail, Whatsapp, Twitter (and FB if you have, eh-hem).
