

## GYE CHATROOMS - LOOKING FOR BETA TESTERS

GOOD NEWS! The long-awaited GYE chatrooms should be functional!

If you want to help us test it and give us feedback, here's what you need to do:

1) Go to: [guardyoureyes.com](http://guardyoureyes.com)

2) Click on Tools > Chatrooms

3) If you're an old timer on the forum (about 6 months ago), log in with your username and password. If not, click register and make a new username and password.

4) Once your registered, we will have to verify you for chatting. Since chatting is more intimate than posting, we have to be extra careful about gender separation. To use chat, you need to have a separate verification. Send us an e-mail to [gye.help@gmail.com](mailto:gye.help@gmail.com) with your username and if we know that you are male, we'll give you access.

5) Once we verify you for chat, you will be able to use it with anyone else who is online.

There is both public chat and private. Public chat can be seen by anyone online. Private chat is one-on-one chatting between members.

There are even special chat-room groups, for example "Married Men". If you are married, you will be given access to this group and can chat with other members in this group about marriage issues.

**NOTE: To chat with someone privately, just click on their name in the public chat window**

**and a new private chat window will open.**

-----

Simple steps to have GYE chatrooms running as a separate application.

1. Download the latest Google Chrome browser.
2. Go to the chatrooms and log-in.
3. Go to Settings (the wrench on the top right) -> Tools -> Create Application Shortcuts.
4. Make shortcuts on your desktop, start-menu, etc...
5. Just click on the shortcut when you want to chat (even if you usually use another browser for your surfing).

No luck. Even with the new username and password, the "register" button takes me nowhere.

If you still have trouble logging in, it could be your password is too short. The new website requires a stronger password. You can click FORGOT PASSWORD & change it to a 6 character code. If you've changed your e-mail and it doesn't work, let me know and I'll make you a new password (or send me a new password to put in).

**PLEASE POST ALL FEEDBACK ON THIS THREAD ONLY, SO I CAN HAVE IT ALL IN ONE PLACE TO REVIEW AND SEND TO OUR DEVELOPERS.**

Hatzlacha!

To chat privately with someone, simply list on-line users (right side) and then click a user, then click "send private message"... It opens a new private chat window between you and him... ;D

R' Guard,

I was on the chat board for a while.

I clicked to try a private one on one chat with someone.

nothing happened.

About twenty minutes later, in mid chatting, I got bumbed off to a page that said you are logged on to a private something or other. It had a log off button on it.

beta.

ciao

I can't use the same one i have here? Or do you mean that I can register with the same username I have already?
