

Which font do you like better for our logo?

After months of working on perfecting our logo with professional artists and illustrators, we finally have the image we want - and we've narrowed it down to two possible fonts.

[See here](#) the two fonts together.

[See here](#) how font 1 looks on the new website.

[See here](#) how font 2 looks on the new website.

The cool script font (logo 1) is meant to look warm, friendly and cutting-edge. We want to express the idea that we don't take things "too seriously" and that we use modern, cutting-edge tools and psychological approaches to helping people (as opposed to the run-of-the-mill "be frummer" attitude). We thought that this font expresses these sentiments and adds a cool-edge to the logo-image.

The second font (logo 2) is much more conservative. It is elegant, simple and doesn't distract the user or call too much attention to itself.

We want to hear what you think.

Please vote above.

Thank you!

Let's get this straight: 11 people (69%) vote for the normal font and 5 people (31%) vote for the

. Either that, or he used the  
. 16 ppl is a pretty small sample size anyway.

Apparently this is not a democracy, not all votes are created equal

Let's get this straight: 11 people (69%) vote for the normal font and 5 people (31%) vote for the electoral college

I'm well aware of that, but that fails to consider that I voted for the normal font! >

The votes were weighted by post count, so between Guard and Dov they overrode everyone else. ;D

If he takes "length of post" into consideration, then having dov makes them win by a landslide ;D.

Anyone have a bag? Feeling a bit sick to my stomach...Next time I'm creating a fake username and voting under that alias.

Nahhh...this is more fun!

How about something along these lines: ????? ??????. It has soft strokes, and gives off a truck like image but at the same time conveys the psychological undertone of "so help you if you dare look."

LOVE IT !!!! I had a good laugh Ur-a-Jew ,

Now UR a good Comedian. Some of these letters look like sabres ready to chop my head off or my hand if i touch the wrong thing... :-[ or maybe chop something else....Hey enough already...

someone once posted [i searched for it and cannot find it]

that his boss once walked in when he was posting on the forum and he tried to minimize it but didn't succeed, his boss came over and looked and said hmmm simple machines forum

basically when someone who is not familiar with the forums sees us on it they don't know that it's an "internet addiction forum for jewish men" will it stay that way in the new website?
