1. A Special Guest

This coming Thursday night, Elya will be having a special guest on [his conference call](#); the famous Michelle Rappaport, CSAT, LPC. She is a renowned addiction therapist who was on Elya's call once before, over a year ago. Please see [this page](#) for some notes from that memorable call. She was actually the one who introduced the entire concept of 90 days to GYE. (And on that phone-call, Jack undertook the 90 day journey. Today, Jack is over a year clean. See his inspiring time-line [here](#), but I digress...) If you have a particular topic you would like Michelle to address, please send your idea to us [here](#) - or to Elya [here](#).
