

Porn and phone addiction

Posted by imohamed - 18 Nov 2024 15:10

Hello everyone I need a help on phone addiction and pornography. I'm so hooked up to my phone that I watch illicit content on social media I tried with filters but they are expensive can someone recommend some app locks where a friend can set up a password that I don't know to avoid reaching those temptations. I mean just block social media.
