

iPhone App Is Down??

Posted by puremind - 12 Aug 2025 06:13

---

Its been a while since the iOS app had been working for me, the only thing that does work are the forums and chat...

Is this being taken care of?

Are any of the other iOS users experiencing issues?

The chats don't work well on the app and often crash

today I'm having extra issues with loading the forums

we can definitely use an app update

(hoping to start posting regularly bh)
