

A lecture on internet addiction in the frum community on Feb 10 in Montreal
Posted by the.guard - 30 Jan 2010 20:20

I received this e-mail from the director of Project Pride, who is in touch with me about our work.
(I will be speaking to him by phone this week, IY"H, if anyone has any questions to ask him).

I am presenting at a lecture on internet addiction in the frum community on feb 10 in Montreal.

If you have anyone who is interested please give them my email address. Also can you suggest
a article for me to make available to those in attendance?

I continue to hear life saving reports about what you are doing.

Good shabbos,

Rabbi Bresinger

director@projectpride.org
