

**Big Things Are Happening**

---

To all my beloved GYE family.... Although I can't reveal details yet, I just wanted to let you all know that big things are happening lately... A very influential and powerful PR guy is partnering up with me, be"n, here in Israel, to take GYE to a whole new level. We have already drafted a professional business plan, and he is confident that he can help raise the funds we need, to do most - if not all, of the dreams I have had, to reach every Yid who struggles in these areas throughout the world. (And based on his credentials, when he says he can, it's pretty much ) He is a professional therapist himself, with a deep understanding of the severity of the problem facing us today. He is a man of integrity, impeccable Midos, and a deep believer in changing the world for the better. (And he has run large and successful campaigns in the past, in areas of Kiruv and such things).

Keep up the good work all of you, because **you are the "seedlings" of GYE**, and one day there will hopefully be thousands of more Yidden who will be getting help through an expanded website, upgraded forums, chat-rooms, phone conferences and hotline networks throughout the world, and many books and publications as well!

Have a wonderful Shabbos.  
decided, with G-d's help

If I were a seedling where would I like to grow?

I think I would like to be a AsaH Mitzra'ah (Rashi- 2nd pshat: A hadas that grows on the 'meitzar' -border of the field. which gets the most sun, air and plenty of water. It also has 7 leaves, and is kosher for netilas lulav)

Who here knows what I'm talking about?

Vehaya Keitz shatul al palgei mayim, asher piryo yitein beito vealeiyu lo yibol.....vechol ahser ya'aseh yatzliach!!

was this thread supposed to be locked?
