www.frumtube.com

We got an e-mail recently from frumtube:

My name is Daniel and I run FrumTube.com.

I admire greatly what you do on guardureyes.com.

I saw recently on your forums there was discussion about FrumTube and whether it is truly kosher, etc.

I can say with utmost certainty that we have the strictest possible standards for screening our videos before they are approved.

We do not allow women at all to be in videos on our site, barring if they are only seen for a split second in the background, subject to the discretion of our moderators. Of course, videos are also screened for inappropriate hashkafa, etc.

We started our website several months ago and have b"H seen a tremendous response from the frum community, getting nearly 10,000 hits daily.

Please take a look at it, and let your readers know that there is a safe haven on the internet to upload and watch only kosher videos.

Daniel
