Try DC at 12:00EST 7pm IL time

Long distance will cost you either 18.?? a month with your existing phone line....

or \$25 a month, plus an internet connection, and an additional phone. (you can do without the second phone, for another \$2, and use your cellphone)

Both options allow US callers to reach you at a US#. PM me for details if you are doing the 2nd option, this way they give me \$25 for reffering you.

Otherwise, check the NEwcomer's guide for the details (International Calls page 433?)
