

Grand Central Station for extra-curricular meetings on our secret phone line

So far, our chevra has started our first steps. Some of us wrote out the facts of what they did - their sexual acting out history. Some may yet share that with the group on a call, some may write it here. Someone suggested that a guy who wants to share it for longer than just a quickie on the regular call, can do so by arranging a time to meet with other chevra members on our regular #. Great idea.

This is the place to arrange such meetings! Let's see how it goes.

Hatzlocha!
